Annual Refresher, &
Experienced Miner**

2-Year CPR

**OSHA 10
OSHA 30**

Individual classes are going on now.

YOU MAY REGISTER YOURSELF OR YOUR ENTIRE CREW IN OUR CUSTOMIZED TRAINING PROGRAMS

We have classes available on a regular basis that are open to the public. We would be glad to have you join us for your next class.

We have the training you need. Our training is specific to Wyoming industries and the particular regulatory environment of our communities and businesses. We can help you understand OSHA as well as MSHA and to reconcile the differences in a manner that makes dual compliance possible.

SAFETY SOLUTIONS

- OSHA, MSHA, AND CPR TRAINING
- SAFETY TRAINING
- CUSTOMIZED COMPLIANCE
- SAFETY PROGRAM MANAGEMENT
- SAFETY CONSULTING

flexible solutions for your training needs

OSHA General Industry

Oil & gas as well as all other non-construction and non-mining occupations are regulated under OSHA's General Industry provisions.

We have customized OSHA classes as well as OSHA 10 and OSHA 30 for General Industry. You can register today.

We know 29 CFR 1910 and we will help you know it too.

OSHA Construction

We offer a variety of OSHA classes for a variety of settings and requirements. Most notable are our OSHA 10 and OSHA 30 for Construction.

Understanding 29 CFR 1926 is our business. We can help make it clearer for you too.

Be ready to go to work by having your trainings in place and current whenever your customer or an employer calls.

MSHA

Our MSHA classes are complete and require no additional training time to have a fully-completed 5000-23.

We work with you to ensure that you receive the training you need. If you've had your MSHA before, even if expired, you may be eligible for the shorter Experienced Miner Training rather than the full, 24-hour New Miner Training again.

Our MSHA New Miner Training INCLUDES the CPR/First Aid Training 2-year certification.

Our MSHA Annual Refreshers are fresh. We've added all-new material in a more dynamic teaching environment to better assure information retention.

CPR and First Aid

Our CPR and First Aid Trainings are through the American Heart Association. We offer a wide variety of CPR classes, including classes for healthcare workers, coaches, Medicaid providers, foster care, daycare, respite, industrial, and commercial employees.

This training is a 2-year certification and is accepted by OSHA, MSHA, Medicaid/Medicare, DFS, and more.

WE'VE TRAINED IN DIVERSE SETTINGS. HOW CAN WE HELP YOU?

Please register for your safety trainings through us. We've the diversity and experience to ensure quality and compliance.
